Using your personal data

TO PROVIDE THE PRODUCTS AND SERVICES YOU REQUEST

We need to process your personal data so that we can manage your account or booking, provide you with the products and services you want to buy and help you with any orders and refunds you may ask for.

TO MANAGE AND IMPROVE OUR PRODUCTS, SERVICES AND DAY-TO-DAY OPERATIONS

We use personal data to manage and improve our products, websites, mobile apps, customer loyalty or recognition programme(s) and other services.

We monitor how our services are used to help protect your personal data, detect and prevent fraud, other crimes and the misuse of services. This helps us to make sure that you can safely use our services.

We may use personal data to respond to and to manage security operations, accidents or other similar incidents, including medical and insurance purposes.

We may use personal data to carry out market research and internal research and development, and to develop and improve our product range, services, shops, IT systems, security, know-how and the way we communicate with you.

We use CCTV images to help maintain the safety of anyone working in or visiting our shops, premises and other buildings, and for the prevention, detection and prosecution of criminal offences. We may also rely on the images to establish, exercise or defend our legal rights.

TO PERSONALISE YOUR EXPERIENCE

We want to ensure that marketing communications relating to our products and services, and

those of our suppliers, retail partners and the [TUI Group](#), including online advertising, are relevant to your interests.

To do this, we may use your personal data to better understand your interests so that we can try to predict what other products, services and information you might be most interested in. This enables us to tailor our communications to make them more relevant and interesting for you.

Looking at your browsing behaviour and purchases helps us to better understand you as a customer and it allows us to provide you with personalised offers and services.

We may also measure your responses to marketing communications relating to products and services we offer, which enables us to offer you products and services that better meet your needs as a customer.

If you do not want to receive a personalised service from us, you can change your preference online, over the phone or by writing (e.g. email) to us at any time. We will update our records as soon as we can.

TO MAKE CONTACT AND INTERACT WITH YOU

We want to serve you better as a customer so if you contact us, for example by email, post, and phone or via social media, we may use personal data to provide clarification or assistance to you.

We need to process your personal data so that we can manage any promotions and competitions you choose to enter, including those we run with our suppliers and retail partners. For example, if you win a prize.

We may invite you to take part in customer surveys, questionnaires and other market research activities carried out by the [TUI Group](#) and by other organisations on our behalf.

To help us to better understand you as a customer, and to be able to provide you with services and marketing communications (including online advertising relevant to your interests), we may combine the personal data we collect when you make purchases in-shop with personal data collected from our websites, mobile apps and other sources.

We do NOT sell your personal data to third parties.

Marketing communications

From time to time we may send you relevant offers and news about our products and services in a number of ways, including by email. We may also send you information about other companies' products and services that we believe may be of interest to you. We will only do this if you previously agreed to receive these marketing communications.

When you book or register with us we will ask if you would like to receive marketing communications. You can change your marketing preferences by writing to us at any time: Email to tui-blue@tui.com or in writing to TUI Hotel Betriebsgesellschaft mbH, Karl-Wiechert-Allee 23,

D-30625 Hannover. Of course, the choice is entirely yours, but if you say you do not want to receive marketing information from us this will prevent you from receiving great offers or promotions that may be of interest to you.

You may still receive service-related communications from us. For example, confirming bookings you make with us and providing important information about the use of our products or services.

Product recommendation by e-mail

As a customer of TUI Hotel Betriebsgesellschaft mbH, you will regularly receive product recommendations from us by e-mail. You will receive these product recommendations from us irrespective of whether you have subscribed to a newsletter or whether you have consented to marketing communication by e-mail. In this way, we want to send you information about products from our range that may be of interest to you based on your most recent purchases from us.

In doing so, we strictly comply with the legal requirements.

The product recommendations by e-mail are based on the legal basis of Art. 6(1)f DS-GVO and are also permissible by e-mail for our customers within the framework of § 7 (3) UWG. For any use of your contact data for advertising purposes, we expressly draw your attention to your right to object, which you can exercise simply and unbureaucratically at any time. If you no longer wish to receive product recommendations from us by e-mail, you can object to this at any time; a text message to tui-blue@tui.com is sufficient for this. Of course, you will find an unsubscribe link in every e-mail.

Market research

We like to hear your views to help us to improve our products and services, so we may contact you for market research purposes. You always have the choice on whether to take part or continue in our market research.

Detailed information on the data recorded in our questionnaires, in particular on anonymous evaluation, is explained in detail in the accompanying information. The legal basis here is Art. 6 (1) f) GDPR, as we have a vital interest in these evaluations and the improvements to our offer are based on them. If customer satisfaction surveys are sent to you by email, we either have your explicit advertising consent in accordance with Art. 6 (1) a) GDPR or may also address you as our customer within the scope of Section 7 (3) UWG by email . If you do not wish to receive our questionnaires, simply let us know by sending an email to tui-blue@tui.com.

Sharing personal data with suppliers and retail partners

In order to provide products or services requested by you we may share personal data with suppliers of your travel arrangements, including airlines, hotels and transport companies.

We also work with [carefully selected suppliers](#) that carry out certain functions on our behalf. For example, companies that help us with IT services, storing and combining data, marketing, market research, processing payments and delivering products and services.

We may need to share personal data to establish, exercise or defend our legal rights; this

includes providing personal data to others for the purposes of preventing fraud and reducing credit risk.

When we share personal data with other organisations we require them to keep it safe, and they must not use your personal data for their own marketing purposes.

We only share the minimum personal data that enable our suppliers and retail partners to provide their services to you and us.

Sharing personal data with regulatory authorities

So that you can travel, it may be mandatory (as required by government authorities at the point(s) of departure and/or destination) to disclose and process your personal data for immigration, border control, security and anti-terrorism purposes, or any other purposes which they determine appropriate.

Some countries will only permit travel if you provide your advance passenger data (for example [Caricom API Data](#) and [US Secure Flight Data](#)). These requirements may differ depending on your destination and you are advised to check. Even if not mandatory, we may assist where appropriate.

We may share the minimum personal data necessary with other public authorities if the law says we must, or we are legally allowed to do so.

Sharing personal data within the TUI Group

Our Privacy Notice applies to all of the services offered by the TUI Group but excludes services that have separate privacy notices that do not incorporate this Privacy Notice. We may share the minimum personal data necessary with other companies in the [TUI Group](#), for example, to provide the products and services you request; to manage and improve our products, services and day-to-day operations; to help to personalise your experience; where appropriate, to make contact and interact with you; and, if allowed and appropriate, for marketing or market research purposes.

We may also share personal data with an organisation we sell or transfer (or enter into negotiations to sell or transfer) any of our businesses or any of our rights or obligations under any agreement we may have with you. If the transfer or sale goes ahead, the organisation receiving your personal data can use your data in line with this Privacy Notice.

Protecting your personal data

We know how important it is to protect and manage your personal data. We take appropriate security measures to help protect your personal data from accidental loss and from unauthorised access, use, alteration and disclosure.

The security of your data also depends on you. For example, where we have given you or where you have chosen a password for access to certain services, you are responsible for keeping this password confidential.

The personal data that we collect from you may be transferred to, and stored at, a destination outside the European Economic Area ("EEA"). It may also be processed by organisations operating outside the EEA who work for us or for one of our suppliers. We put in place appropriate protections to make sure your personal data remains adequately protected and that it is treated in line with this Notice. These protections include, but are not limited to, appropriate contract clauses, such as [standard contract clauses approved by the European Commission](#), and appropriate security measures.

Data retention

We will retain your personal data for only as long as it is necessary for the uses set out in this Privacy Notice and/or to meet legal and regulatory requirements. After this period, we will securely erase personal data. If data is needed after this period for analytical, historical or other legitimate business purposes, we will take appropriate measures to anonymise this data.

About cookies and similar technologies

Cookies are small data files that allow a website to collect and store a range of data on your desktop computer, laptop or mobile device. Cookies help us to provide important features and functionality on our websites and mobile apps, and we use them to improve your customer experience. Please see our separate [Cookie Notice](#).

Our service providers and third-party providers

TikTok

We use TikTok Pixel on our website. TikTok Pixel is a TikTok advertiser tool provided by TikTok Technology Limited, 10 Earlsfort Terrace, Dublin, D02 T380, Ireland, and TikTok Information Technologies UK Limited, WeWork, 125 Kingsway, London, WC2B 6NH, United Kingdom (collectively 'TikTok'). The TikTok Pixel is a JavaScript code snippet that enables us to understand and track the activities of visitors to our website. To do this, the TikTok Pixel collects and processes information about visitors to our website or the devices they use. The data collected via the TikTok Pixel is used to target our advertisements, improve ad delivery and personalise advertising. For this purpose, the data collected on our website using the TikTok Pixel is transmitted to TikTok. Some of this data is information stored on the device you are using. In addition, the TikTok Pixel also uses cookies to store information on the device you are using. Such storage of information by the TikTok Pixel or access to information already stored on your device will only take place with your consent.

We also use the TikTok Events API - <https://ads.tiktok.com/help/article/events-api>. We use server-to-server tracking with the help of the TikTok Events API, whereby a unique identifier is generated and stored when a tracking link is clicked. This enables us to measure the effectiveness of our advertisements. The following data points are shared with our partner TikTok via server-to-server tracking: pseudonymised email, IP address, pseudonymised Tealium cookie ID, TikTok click ID (ad ID), details of conversion events (such as hotel ID).

For more information on how TikTok processes personal data, including the legal basis on which TikTok relies and the options for exercising your rights vis-à-vis TikTok, please refer to TikTok's privacy policy at <https://www.tiktok.com/legal/page/eea/privacy-policy/en>.

Links to other websites

Our websites or mobile apps may contain links to websites operated by other organisations that have their own privacy notices. Please make sure you read the terms and conditions and privacy notice carefully before providing any personal data on another organisation's website as we do not accept any responsibility or liability for websites of other organisations.

Social media features

Our websites or mobile apps may contain social media features such as Facebook, Twitter, Google+ or Pinterest, which have their own privacy policies.

Please be sure to read the terms of use and privacy policy carefully before submitting any personal information, as we are not responsible or liable for these features.

We use the following plugins on our websites: Facebook, Twitter and Google+. If you do not want social networks to collect data about you via active plugins, you can select the '[Block third-party cookies](#)' function in your browser settings. The browser will then not send any cookies to the server for embedded content from other providers. However, with this setting, other cross-page functions may no longer work in addition to the plugins.

When these plugins are activated, your browser establishes a direct connection to the servers of the respective social network as soon as you visit a page on our website. The content of the plugin is transmitted directly from the social network to your browser and integrated into the website. By integrating the plugins, the social network receives the information that you have accessed the corresponding page of our website. If you are logged in to the social network, it can assign the visit to your account. If you interact with the plugins, for example by clicking the Facebook 'Like' button or posting a comment, the corresponding information is transmitted directly from your browser to the social network and stored there. For the purpose and scope of data collection and the further processing and use of data by social networks, as well as your rights in this regard and setting options for protecting your privacy, please refer to the data protection information of the respective networks or websites. You will find the links to this below.

Even if you are not logged in to social networks, data can be sent to the networks from websites with active social plugins. An active plugin sets a cookie with an identifier each time the website is accessed. Since your browser sends this cookie without being asked every time you connect to a network server, the network could in principle create a profile of which websites the user associated with the identifier has visited. It would then also be possible to assign this identifier to a person at a later date, for example when they log in to the social network.
